

Collaborative, Commemorative Colourwork with **KNITSONIK**

A workshop based on the *Let Glasgow Flourish* pattern by Kate Davies of KDD & Co. Used with kind permission.

Because of the centred double decreases, it can be difficult to visualise each quarter of your square before planning your design. This blank chart template presents an approximation of what one quarter of a *Let Glasgow Flourish* blanket square looks like; use this space to develop and swatch one quarter of your blanket square (in a quarter of the time it would take to knit a whole square). Once satisfied with your results, carefully transfer your design into the blank chart template overleaf. *You will then be ready to knit your square!*

- knit in background shade
- knit in pattern shade
- work in colour planned for CDD in final square chart
